## (54) METHOD AND SYSTEM FOR PROVIDING TECHNICAL INFORMATION, AND METHOD AND SYSTEM FOR MAKING LICENSE CONTRACT

### (57)Abstract:

**PROBLEM TO BE SOLVED:** To provide a method and a device capable of easily providing technical information desired by a user and facilitating the procedure for making a license contract.

**SOLUTION:** This method and a device for providing technical information comprise a step of providing first technical information 7 from a provider to a user inputting first user information; a step of registration as a technical information member, a user making a secrecy agreement with a provider by presenting second user information; a step of providing second technical information 13 to the technical information member through the Internet; and a step of accumulating the first and second user information in a user control data base 9. A license contract is made through documents and the Internet with the technical information member.

### LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision]
